Fruitland Magnesium Fire Site Removal Plan.docx

I'm available this afternoon after 4 pm and tomorrow morning except 0930-1000. I am available at the number below or please provide a call-in number.

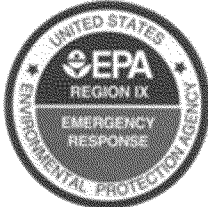

The current status/next steps information is the same for elected officials, press, and residents. Please find attached the removal plan document I prepared for Harry.

I'd also like to discuss CI support for the site and production of a fact sheet to go out concurrently/immediately after the resident info packages. Please invite any staff that will be supporting the project to join the call.

Thank you,

Can we set up an internal meeting/call to discuss prior to my reaching out to set up a call with Marie Liu (Office of Speaker Anthony Rendon), Veronica Zendejas (District Director for Anthony Rendon) and Josh Tooker (Assembly Committee on Environmental Safety and Toxics)?

**Subject:** Re: Maywood incident

With OPA staff for sure, for any calls with elected officials. Make sure that we have DTSC and Cal Recycle on board also.

David we will need CI support on the Fruitland removal action.

Please prepare a fact sheet, in English and Spanish, that we can send out to the community with the final data packages. The fact sheet should outline our removal process and stress that the state and local agencies also have a role to play.

FYI

If contacted, should I answer questions directly? Or jointly with OPA staff? I'm available anytime to update OPA staff with plans for the site.

FYI – Marie Liu (Office of Speaker Anthony Rendon), Veronica Zendejas (District Director for Anthony Rendon) and Josh Tooker (Assembly Committee on Environmental Safety and Toxics) requested a conference call with Bill Jones this morning to discuss the status of the Maywood site clean-up (see email below). They asked for your contact information which I will email to them, but wanted to give you a heads-up. Their questions were the same we've heard before – Who is going to clean the site? Why is it taking so long? Who sets clean-up levels? When asked to quantify the number of complaints their district office had received the response was 3 or 4.

Let me know if you have any questions or need more information.

Thanks,

Tony Payne, Assistant Chief

Hi Bill-

Could we check in with you sometime Monday AM between 10-12 to discuss the clean-up of the Panda International incident in Maywood? We would like some clarity on who is in charge of what aspects of the cleanup. Also, our district office (Veronica, cc'ed on this email, is our district director) gets regulator calls complaining about odors from the site and while we have been directing them to the complaint line for South Coast AQMD, we would like to be able to give our constituents more information.

Let me know what time works best for you.

Thanks,

Marie
